Relief Carving Templates

Holiday 2022

Printing Instructions

To ensure all templates are sized at 100% (6in x 6in / 15.25cm x 15.25cm), please follow the instructions below.

1. To make sure that your templates print at 100% borderless, check to see if your printer allows for borderless printing. This will require you to go into your printer settings (either from your computer or from the printer itself) and change the default border sizes. These options can typically be found under "Page Layout." Change all of the margins to zero.

2. When your document program's printing dialogue box opens, make sure you have "borderless printing" enabled. This may be in "advanced options" section, depending on what program you are using.

3. If neither solutions above work, change the printing size scale. Increase the scale by 5% at a time until you've reached a scale percentage that results in a template measuring 6in x 6in / 15.25cm x 15.25cm. (Test these scale increases with single pages to save you both ink and paper.)
